(b) and (c) The Voluntary Retirement Scheme was designed with the objective of right sizing the manpower without affecting the functioning of banks adversely. Banks have informed that generally there has been no deterioration in the quality of customer service. However, in the post-VRS scenario certain imbalances/Mis-matches have occurred between officers and award staff employees as well as within officers' cadre. To manage these imbalances/mis-matches, banks have taken various steps to rationalise their staff by way of re-assessment of their cadre-wise staff requirement at different centers in order to provide the requisite staff by relocation from surplus to deficit pockets and by need-based promotions of competent and qualified officers.
